Infrastructure Health & Safety Association™
Work Safe for Life

IHSA releases new road safety resources, an e-learning program, and a social media awareness campaign to help prevent workplace motor-vehicle incidents

Motor-vehicle incidents (MVIs) are the leading cause of traumatic workplace fatalities in Ontario. If you have employees who drive for work, whether it is a commercial vehicle, company vehicle, or personal vehicle, you need to manage the risks associated with driving.

To help employers understand their obligations when it comes to road safety and how to implement effective and practical prevention strategies, the Infrastructure Health and Safety Association (IHSA) has created a dedicated web page that hosts a series of road safety resources.

"The tools that are available are free and easy to use and are designed to support an employer who doesn't know where to start when it comes to managing road safety or an employer who already has an effective program in place but wants to add a little more to complement their efforts," says Michelle Roberts, Director of Stakeholder and Client Engagement with IHSA.

The message from IHSA is that road safety is smart business. The road safety solutions web page includes free customizable policies, procedures, safety talks, YouTube videos, tip sheets, posters, and a new e-learning option for IHSA's *Preventing Work-Related Motor Vehicle Incidents* course.

This free e-learning program will help employers who have employees that drive for work implement a Road Safety Program with the goal of reducing injuries and fatalities caused by MVIs and collisions. It will break down specialized road safety practices and processes into manageable steps that employers can implement at their workplaces.

To access your free resources and find out how IHSA can help you be safer on Ontario roads, please visit www.ihsa.ca/roadsafetysolutions

You can also access the *Preventing Work-Related Motor Vehicle Incidents* e-learning course at: www.ihsa.ca/elearning/ihsa/PWRMVI

Check out IHSA's social media messages via Twitter, LinkedIn, and Instagram and send them to workers and loved ones.

About IHSA

IHSA is a leader in health and safety education. Through skills-based training, auditing, and evaluation, we provide safety solutions to those who perform high-risk activities such as working at heights, working with energized high-voltage power systems, driving motor vehicles, transporting dangerous goods, working on suspended access equipment, and utility line clearing.

Infrastructure Health & Safety Association™

Work Safe for Life

As part of Ontario's health and safety system, we are recognized by the Ministry of Labour, the Ministry of Transportation, the Ministry of Training, Colleges and Universities, and the Workplace Safety and Insurance Board as designated trainers and consultants. So, you can be sure that the training you get from IHSA meets regulatory requirements and compliance standards.

You are automatically a member of IHSA if you pay premiums to the WSIB in one of the 28 rate groups in the industries that we serve:

- construction
- electrical
- utilities
- transportation
- aggregates
- natural gas
- ready-mix concrete
