

Vacancy PLMHSC- Heavy Civil - Management

Industry News

The Provincial Labour Management Health and Safety Committee (PLMHSC) Construction is looking to fill one (1) management vacancy in the following combined sectors:

- *Heavy Civil Construction that may also include Marine Construction and Diving, Rock Drilling/Blasting, Tunneling, Caissons/Piling, Soil and Rock Testing, Pipelines, Land Clearing, Utility Construction, and Water Well Drilling.*

There is only one (1) seat available. In order to qualify for the vacancy the committee will be accepting nominations through the process outlined below.

The applicant will:

- a. be part of a Provincial representative body, representing contractors in at least one of the following sectors: Heavy Civil Construction, Marine Construction and Diving, Rock Drilling/Blasting, Tunneling, Caissons/Piling, Soil and Rock Testing, Pipelines, Land Clearing, Utility Construction, and Water Well Drilling,
- b. qualify for the position as per the existing terms of reference for the PLMHSC,
- c. submit an application form.

All application forms will be reviewed by the IHSA and forwarded to the management caucus of the PLMHSC – Construction for a final decision. The successful applicant will be posted on the IHSA Labour-Management webpage.

Please contact Dean Dunn at (226) 821-0713 or ddunn@ihsa.ca to obtain an application form and current copy of the terms of reference for the PLMHSC.

All applications must be submitted by December 31, 2021.
