

Keep your promise

Do your part!

Workers, Drivers, Pedestrians...we all have our part!

Struck-by incidents are a significant concern when working around heavy equipment and motor vehicle traffic. To ensure the safety of everyone working, or travelling through roadside construction sites, we all need to do our part to obey signage and stay alert. By working together to make busy roadside construction zones safe, everyone can keep their promise to come home safe at the end of the day.
