This information does not constitute legal advice. To determine your rights and duties under the OHSA, please contact your legal counsel or refer to the legislation.

### Section 1 – Senior Manager's Comment

Yesterday, I was a guest at the Carpenters' Union National Apprenticeship Competition. I was impressed by the focus demonstrated by the participants who were working under time pressure to complete complex projects from blueprints. The work I saw was impressive and I came away hopeful. When I contrast that competition with the injury statistics in this month's report, I wonder if the focus I saw on display ends when a worker goes on to a project. This month we see incident after incident where someone is clearly unfocused on safety. Multiple injuries walking through rebar, hands smashed in tailgates, walking backward and falling from a truck bed, are all injuries that are fully preventive if attention is paid to the work environment.

It's important to take notice of what's going on around you. Situational awareness is a key factor that drives safety. Projects are dynamic with people, vehicles, and equipment moving and interacting constantly. Alertness can save your life or the life of someone you work with.

Sincerely, Chris Boccinfuso

A/Senior Manager
Construction Health and Safety Program
Occupational Health and Safety Branch
Ontario Ministry of Labour, Training and Skills Development

**Section 2 – What's New**

## Appointment of Trevor Jones as Minister of Labour, Immigration, Training and Skills Development

Premier Ford recently announced changes to Ontario's Cabinet, appointing Trevor Jones as the new Minister of Labour, Immigration, Training and Skills Development (MLITSD). Minister Jones joins the MLITSD from his previous role as Minister of Agriculture, Food and Agribusiness.

For the latest **What's New** – MLITSD articles, see: What's New!

**Section 3 – Court Bulletin(s)**

# Cement Manufacturer Fined $475,000 After Worker Fatality at Bowmanville Plant

**September 28, 2026**

**Convicted:** St. Marys Cement Inc. (Canada), 55 Industrial Street, Toronto, Ontario, a cement manufacturer

**Location of Workplace:** Cement plant at 410 Bowmanville Avenue, Bowmanville, Ontario

**Description of Offence:** St. Marys Cement failed, as a constructor, to ensure blocking was installed to prevent the movement of equipment during repair work, contrary to section 108 of Ontario Regulation 213/91 and section 23(1)(a) of the *Occupational Health and Safety Act*.

**Date of Offence:** March 21, 2023

**Date of Conviction:** September 14, 2026

**Penalty Imposed:**

- Following a guilty plea in the Ontario Court of Justice in Oshawa, St. Marys Cement Inc. (Canada) was fined $475,000 by Justice Liana Marcon; Crown Counsel were Shantanu Shankar Roy and Alexsis Qi.
- The court also imposed a 25 per cent victim fine surcharge as required by the *Provincial Offences Act*. The surcharge is credited to a special provincial government fund to assist victims of crime.

**Background:**

- Each year, St. Mary's Cement shuts down its Bowmanville plant for annual inspections, maintenance and repairs on its equipment. During the shutdown, the workplace becomes a construction project under the *Occupational Health and Safety Act*. During its annual

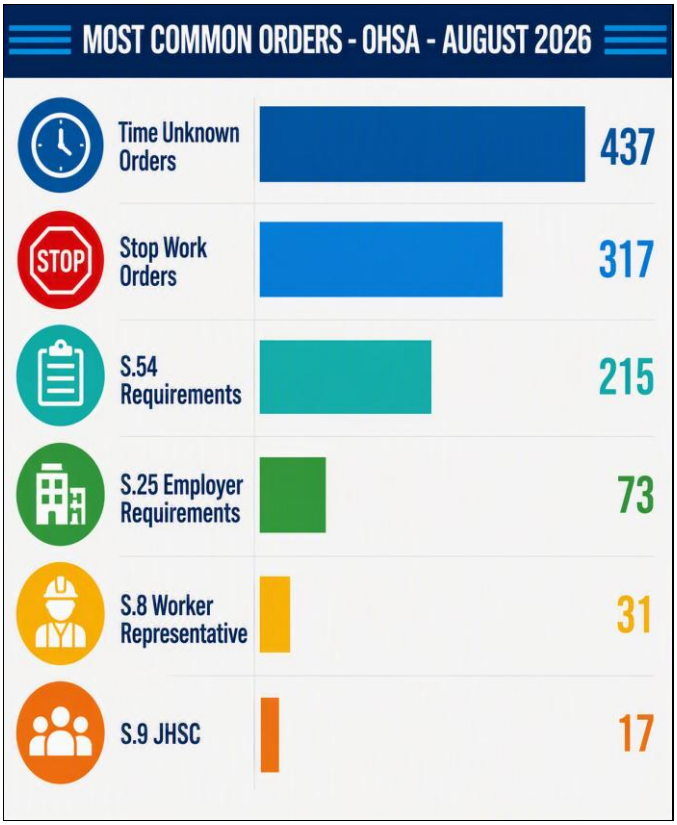
shutdown in 2023, the company hired Trade-Mark Industrial Inc. as a subcontractor on the project.

- On the day of the incident, a young worker employed by Trade-Mark Industrial as an industrial mechanic millwright apprentice was working on an overburden hopper used to move quarry material for cement production. The hopper contained a gate that controlled the flow of material through the system.
- The worker entered the hopper to perform maintenance work. While the worker was inside, a planned power shutdown occurred elsewhere at the project for electrical work. The shutdown caused the gate inside the hopper to close, fatally injuring the worker.
- A Ministry of Labour, Immigration, Training and Skills Development investigation found that blocking had not been installed to prevent the gate in the hopper from moving during maintenance work.
- Section 108 of Ontario Regulation 213/91 (Construction Projects) requires blocking to be installed to prevent the collapse or movement of equipment being dismantled, altered or repaired if its collapse or movement may endanger a worker. By failing to ensure this measure was carried out on the project, St. Marys Cement contravened section 23(1)(a) of the *Occupational Health and Safety Act*.

Court Bulletins can be found here: https://news.ontario.ca/en

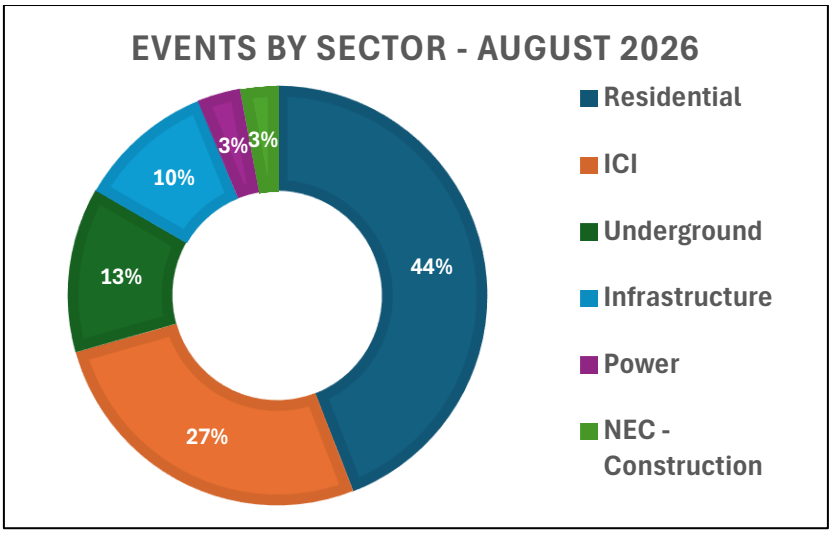
## Section 4 – Enforcement Results and Trends – August 2026

MLITSD Construction Inspectors conducted **1,525** field visits to **1,165** workplaces in August 2026 resulting in **3,453** total enforcement actions. Below is a list of the most common Orders issued.

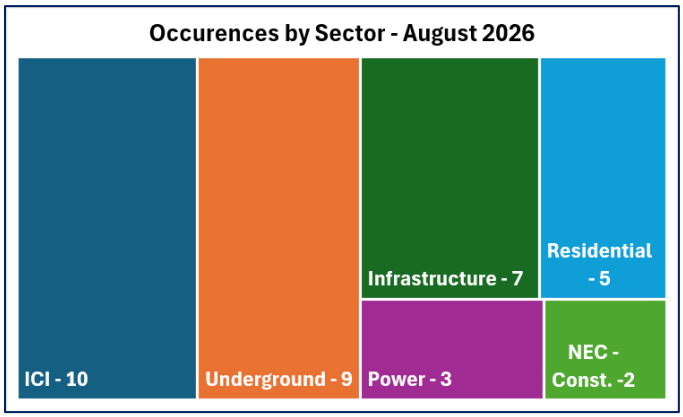


# Ministry of Labour, Immigration, Training and Skills Development

## Occupational Health and Safety Branch - Construction Health and Safety Program



| Classification | Count | Percentage |
|---|---|---|
| Complaints | 333 | 73.2% |
| Injuries and Incidents | 84 | 18.5% |
| Occurrences | 36 | 7.9% |
| Reprisals | 1 | 0.2% |
| Work Refusals | 1 | 0.2% |



**OHSA S.53 - Occurrence means:**

Accident, premature or unexpected explosion, fire, flood or inrush of water, failure of any equipment, machine, device, article or thing, cave-in, subsidence, rockburst, or other prescribed incident occurs at a project.

*NOTE: These figures represent preliminary data and are not to be considered official statistics from the Ministry of Labour, Immigration, Training and Skills Development. Official statistics will be issued quarterly by the Program Analysis, Evaluation and Outcomes Unit of the Occupational Health and Safety Branch of the Ministry of Labour, Immigration, Training and Skills Development. Data are subject to change due to updates in the enforcement database. Only events reported to the ministry are included here. Except for fatalities, event categories in the ministry's data set are based on what was assigned at the time of the initial report to the ministry. The reported event category may not represent what occurred at the workplace.*

**Section 1 of O.Reg. 420/21 states:**
***"critically injured"*** *means an injury of a serious nature that*

| Sub-Clause | August 2026 | YTD 2026 |
|---|---|---|
| (a) places life in jeopardy | 10 | 53 |
| (b) produces unconsciousness | 5 | 45 |
| (c) results in substantial loss of blood | 2 | 5 |
| (d) involves the fracture of a leg or arm but not a finger or toe | 26 | 204 |
| | Arms/Hands: 9 / Legs/Feet: 17 | Arms/Hands: 69 / Legs/Feet: 135 |
| (e) involves the amputation of a leg, arm, hand or foot but not a finger or toe | 1 | 1 |
| (f) consists of burns to a major portion of the body | 0 | 0 |
| (g) causes the loss of sight in an eye | 0 | 0 |
| **Total** | **44** | **308** |
