ACKNOWLEDGEMENTS

PART A—Getting the Contract

Chapter 1
RIGHTS AND RESPONSIBILITIES

1-1 Responsibilities
- 1-1 Constructor's Responsibilities
- 1-1 Employer's Responsibilities
- 1-1 Supervisor's Responsibilities
- 1-2 Worker's Responsibilities
- 1-2 Worker's Rights
- 1-2 Jobsite Postings

Chapter 2
ESTIMATING

2-1 Estimator's Safety

2-1 Safe Practices for Estimators
- 2-1 Building Access
- 2-1 Building Conditions
- 2-1 Live Services
- 2-2 Inadequate Lighting

2-2 Estimating and Health and Safety
- 2-2 Information to Obtain from the Client
- 2-2 What to Look For When Bidding
- 2-2 What to Look For at the Jobsite

2-3 Designated Substance Survey

2-3 Designated Substances with MOL Guidelines
- 2-3 Lead
- 2-3 Silica

PART B—Preparing for the Job

Chapter 3
LEGAL REQUIREMENTS

3-1 *Occupational Health and Safety Act* and Construction Regulation

3-1 *Professional Engineers Act*, Regulation 260/08
- 3-1 Demolition

3-3 *Ontario Building Code*

3-3 Applying the Legislation
- 3-3 Demolition Method
- 3-3 Demolition Plan
- 3-4 Pre-start Checklist and Job Safety Analyses

3-4 Permits and Notices
- 3-4 Permits
- 3-4 Notices

Chapter 4
LOCATING AND DISCONNECTING UTILITIES

4-1 Above-Ground Utility Lines

4-1 Underground Utility Lines
- 4-2 Uncovering Underground Utility Lines
- 4-2 Ontario One Call

4-2 Technical Standards and Safety Authority

Chapter 5
WORKING NEAR OVERHEAD POWERLINES

5-1 Minimum Distances for Working Near Overhead Powerlines

5-1 Developing a Written Procedure

5-2 Injury Prevention Tips

Chapter 6
TRAFFIC CONTROL

6-1 Traffic Control Planning for the Jobsite
- 6-1 Site Planning
- 6-1 Signallers
- 6-2 Training

6-2 Traffic Control Planning for Public Roads
- 6-2 Supervisor's Responsibilities
- 6-2 Traffic Control Person's Responsibilities
- 6-3 Reporting a Traffic Incident

Chapter 7
JOB SAFETY ANALYSES

7-1 Creating a JSA

7-1 Changes to Work Conditions

Chapter 8
EMERGENCY PREPAREDNESS

8-1 Emergency Response Plan and Procedures

8-1 Creating a Demolition-Specific Plan

8-1 Access

8-2 Abatement Projects

8-2 Stand Pipes

8-2 Fire

8-2 Environmental Hazards

8-3 Unplanned Collapse

8-3 Emergency Procedures for Fall Rescue

8-3 Sample Fall Rescue Procedures

PART C—Work on Site

Chapter 9
PERSONAL PROTECTIVE EQUIPMENT

9-1 Head Protection

9-1 Foot Protection

9-2 Hand and Forearm Protection

9-2 Hearing Protection

9-3 Eye Protection

9-3 Clothing

9-4 Layering

9-4 PPE for Lancing

Chapter 10
FALL PREVENTION

10-1 Training

10-1 Common Types of Fall Protection

10-1 Guardrails

10-1 Travel-Restraint Systems

10-1 Fall-Arrest Systems

10-2 Certified Equipment

10-2 Choosing the Right Equipment

10-2 Inspecting the Equipment

10-3 Harnesses

10-3 Lanyards

10-3 Lifelines

10-3 Rope Grabs

10-3 Maintaining and Storing Your Equipment

10-3 Avoiding Suspension Trauma

10-4 Guardrails and Covers

10-4 Guardrails

10-5 Floor-Opening Covers

Chapter 11
HAZARDS—TOOLS

11-1 Non-powered Hand Tools

11-1 Sledge Hammers

11-1 Axes

11-2 Crowbars and Straightbars

11-2 Screwdrivers

11-2 Shovels

11-2 Nail Pullers

11-2 Knives

11-2 Bolt Cutters

11-2 Powered Hand Tools

11-2 Drills

11-3 Sawzalls (Reciprocating Saws)

11-4 Quick-Cut Saws

11-5 Chipping Guns

11-5 Jackhammers

11-6 Electric Jackhammers

11-6 Pneumatic Jackhammers

Chapter 12
HAZARDS EQUIPMENT

12-1 Attachments

12-1 Quick Couplers

12-3 Portable Generators on Mobile Equipment

12-3 Bulldozers

12-4 Elevated Work Platforms

12-6 Excavators

12-8 Mini- (Compact) Excavators

12-8 High-Reach Excavators

12-8 Front-End Loaders

12-9 Portable Generators

12-10 Skid Steers

12-11 Emerging Technologies

12-11 Remote Controls

12-12 Position Controls

12-12 Closed-Circuit TV (Real-Time Video Monitoring)

12-12 Non-Explosive Demolition Agents

12-12 Water Jet Cutting

12-13 Portable Mini-cranes

12-13 New Tools

Chapter 13
HAZARDS—WORK PROCESSES

13-1 Hoisting and Rigging

13-1 Introduction

13-1 Responsibilities

13-1 Weight of Load

13-2 Lifting Devices

13-2 The Lift

13-3 Centre of Gravity

13-4 Hardware Inspection

13-4 Wire Rope Inspection

13-7 Excavator Demolition Hand Signals

13-8 Glass Removal

13-9 Dust Control

13-9 Dust-Control Misting Machines

13-10 Use of Ladders

13-10 Ministry of Labour and Ladders

13-10 Extension Ladders

13-11 Stepladders

13-12 Torch Cutting

13-10 Torch Cutting and Other Hot Work on Vessels, Tanks, and Piping

Chapter 14
OCCUPATIONAL HEALTH

14-1 Asbestos

14-2 Fire-Damaged Buildings

14-2 Bird and Bat Droppings

14-3 Lead

14-4 Legionella

14-4 Mercury

14-5 Moulds

14-6 Other Biological Hazards

14-6 Needlestick Injuries

14-6 Blastomycosis

14-7 Disposing of Dead Animals

14-7 Polychlorinated Biphenyls (PCBs)

14-8 Coal Tar Pitch

14-9 Radiation

14-9 Silica

Chapter 15
SITE WORK

15-1 Mobilization

15-2 Health and Safety Orientation

15-2 New Employee Orientation

15-2 Site-Specific Orientation

15-2 Signs

15-3 Protection of Public Way

15-3 Covered Way

15-3 Fencing

15-4 Work Access

15-4 Suspended access

15-4 Stairs or Elevators

15-4 Ladders

15-4 Scaffold Stair Tower

15-4 Safe Work Zones

15-8 Site Area Isolation

15-8 General Site Isolation

15-8 Confined Spaces

15-8 Atmospheric Hazards

15-9 Atmospheric Testing

15-9 Entry Permit
15-10 Rescue Procedures
15-10 Physical Hazards
15-10 Legislated Requirements

15-14 Waste Streams
15-14 Separation of Materials
15-14 Loading Materials

15-15 Interior Demolition
15-15 Emission Controls
15-16 Temporary Lighting
15-17 Drop Zones

Chapter 16
STRUCTURAL DEMOLITION

16-1 Concrete Cutting and Coring
16-3 Pre- and Post-tensioned Concrete
16-4 Selective Demolition
16-4 Total Demolition
16-5 Mechanical Ground-Based Demolition
16-6 Mechanical Interior Demolition
16-6 Implosion

16-7 Top-Down Demolition
16-7 Roof Removal
16-7 Ceiling Removal
16-8 Wall Removal
16-8 Removal of Precast Wall Panels
16-9 Floor Removal

16-10 Below-Grade Demolition
16-10 Removing Foundations
16-11 Removing Underground Services
16-11 Removing Underground Tanks

Chapter 17
SOIL REMEDIATION
